

WHAT NOW? PREPARING FOR A 2ND TRUMP ADMINISTRATION

Know Your Legal Rights

- Immigrants and undocumented people have legal rights in the US!
- With ICE or police:
 - **Remain silent** (give your legal name only).
 - **Request a lawyer ASAP** (memorize phone number).
 - **Do not sign** any document without consulting a lawyer.
 - **Do not open the door** to ICE/police without a valid warrant signed by a judge
 - **Look for:** judge's signature, correct name & address of person sought -- all must be correct or the warrant is invalid.
 - **Keep records:** photos, videos, notes of all interactions, badge #s, etc.
 - **Do not use fake names or documents.**
 - **Sensitive locations:** In general, no ICE enforcement at "sensitive locations" like schools, churches, hospitals.
- **Due Process:** Most immigrants have the right to a hearing before an immigration judge prior to being deported.
- **Do not miss immigration court for any reason** (even if you don't have a lawyer) to avoid automatic deportation order.

Learn Your Immigration Options

- **Learn if you qualify for legal status:** Must consult with an immigration attorney, who will ask you many questions about your life to determine your options.
- **Beware of deadlines:** Many types of status have deadlines! Talk to a lawyer ASAP!
- **Beware of immigration fraud:** Ask to see attorney's license; look up their disciplinary history; get a second opinion if in doubt.

Hope for the Best; Plan for the Worst

- **Create an emergency plan with your family that includes:** lawyer's information, child care plan, medical information, children's school information (inform school who can pick children up in case of emergency) important documents like passports and birth certificates, immigration case information; leave copies with a trusted friend
